Grazing incidence X-ray standing wave : a novel technique for measuring ultrasmall diffusion coefficients in polymers

S Dev (nec Sen) and B N Dev *Indian J. Phys.* **70A(2)**, 189–195 (1996)

In eq. (5), the power of the quantity in square bracket [] should be read as $-\frac{1}{2}$ in place of $\frac{1}{2}$. Thus, the correct equation is

$$D_c = \frac{\lambda}{2\theta_c} = (\sqrt{\pi}/2) [N_a r_e (Z + f')]^{-1/2}, \quad (5)$$
